Supplementary Material for

Beehive Fireworks Festival Effect on the Nearby Atmospheric PM$_{2.5}$ Level

Keywords: Beehive fireworks display; PM$_{2.5}$; Water-soluble ions; Iso-concentration contour maps.
Figure Captions

Figure S1. Concentration of SO$_2^-$ in PM$_{2.5}$ collected at each sampling site for Before (background), Trial, During and After beehive fireworks display periods. .............................................p3

Figure S2. Concentration of NH$_4^+$ in PM$_{2.5}$ collected at each sampling site for Before (background), Trial, During and After beehive firework display periods. ........................................p3

Figure S3. Concentration of Ca$^{2+}$ in PM$_{2.5}$ collected at each sampling site for Before (background), Trial, During and After beehive fireworks display periods. ........................................p4

Figure S4. Concentration of Na$^+$ in PM$_{2.5}$ collected at each sampling site for Before (background), Trial, During and After beehive fireworks display periods. .......................................p4

Figure S5. Iso-concentration contour map of Ca$^{2+}$ in PM$_{2.5}$ for Before (background), Trial, During and After beehive fireworks display periods. ................................................p5

Figure S6. Iso-concentration contour map of Na$^+$ in PM$_{2.5}$ for Before (background), Trial, During and After beehive fireworks display periods. ................................................p5

Figure S7. Iso-concentration contour map of NH$_4^+$ in PM$_{2.5}$ for Before (background), Trial, During and After beehive fireworks display periods. ................................................p6

Figure S8. Iso-concentration contour map of SO$_4^{2-}$ in PM$_{2.5}$ for Before (background), Trial, During and After beehive fireworks display periods. ................................................p6
Figure S1. Concentration of SO$_2^-$ in PM$_{2.5}$ collected at each sampling site for Before (background), Trial, During and After beehive fireworks display periods.

Figure S2. Concentration of NH$_4^+$ in PM$_{2.5}$ collected at each sampling site for Before (background), Trial, During and After beehive firework display periods.
**Figure S3.** Concentration of Ca\(^{2+}\) in PM\(_{2.5}\) collected at each sampling site for Before (background), Trial, During and After beehive firework display periods

**Figure S4.** Concentration of Na\(^+\) in PM\(_{2.5}\) collected at each sampling site for Before (background), Trial, During and After beehive fireworks display periods
Figure S5. Iso-concentration contour map of Ca$^{2+}$ in PM$_{2.5}$ for Before (background), Trial, During and After beehive fireworks display periods.

Figure S6. Iso-concentration contour map of Na$^{+}$ in PM$_{2.5}$ for Before (background), Trial, During and After beehive fireworks display periods.
Figure S7. Iso-concentration contour map of NH$_4^+$ in PM$_{2.5}$ for Before (background), Trial, During and After beehive fireworks display periods

Figure S8. Iso-concentration contour map of SO$_4^{2-}$ in PM$_{2.5}$ for Before (background), Trial, During and After beehive fireworks display periods
